Table Linen

Omega by Pinnacle represents our line of polyester table linen made from Southern Phenix fabric which combines spun and filament polyester yarns to create a soft but durable fabric that:

Releases stains

Limits picking and snagging

Accepts starch

Softens with age

Looks beautiful after hundreds of industrial wash cycles

Omega weighs in at 6.4 ounce/square yard and is available in both Regular and Ultra Suede (napkins) which gives a more luxurious feel without sacrificing durability. Permanent soil release treatment is standard on Omega. Pinnacle stocks a full compliment of jet dyed white, ivory tops and an ever increasing palette of white and colored napkins and table top sizes as Quik Ship™ inventory. Non stock sizes, rounds and colors are also available as special orders, ready to ship in just a matter of days.

Infinity by Pinnacle represents our line of economically priced imported spun polyester table linen. Made from time tested air jet spun technology Infinity weighs in at a full 7.2 ounce/square yard and includes soil release and anti static treatments. Infinity is spun polyester yarn in both directions of the weave so it provides superior wicking, absorption, durability and hand. Infinity is available only in white napkins and popular sized white table tops.
